

Statement of Concern

Please read carefully – Important information to know in completing this form.

The Canada Energy Regulator (CER) relies on you to bring forward your concerns and views. If you have concerns about a project, complete this form and file it within 21 calendar days of the application being filed with the CER.

The Commission of the CER will consider your statement of concern when it makes its decision on the project.

The Commission will also use the information you provide to plan its review. For example, the Commission may ask the company for a written response, which it will consider (in addition to your statement of concern) when it makes its decision on the project. The Commission may also establish other opportunities for you to make your concerns known and for the company to respond. In deciding whether to hold additional process, the Commission will consider whether your interests may be impacted by the project and your explanation as to why you need more process steps.

Further information on the project application will be communicated to anyone who submits a completed form.

This form and any future documents you file with the CER will appear in the CER's online public registry (unless it is filed confidentially¹). This means that your personal information and the documents themselves can be accessed and viewed by the public.

This form can be completed electronically or you can print a copy of the form and complete it legibly in writing. See **Part F** below for instructions on how to file your completed form.

Statements of concern are for **new applications** for proposed energy projects with the CER. However, if you have concerns about an existing energy project, such as levels of noise, and you are unable to resolve them with the company, refer to the CER's complaint resolution process (<https://www.cer-rec.gc.ca/complaints>).

If you have process questions, you can contact the CER's Land Matters Advisory Service at 1-800-899-1265 (toll free) or via email at LMAS.SCQF@cer-rec.gc.ca.

¹ If you wish to file information that you do not want placed on the public online registry or made public, you may request the CER to treat the information as confidential pursuant to sections 60 or 61 of the CER Act. Generally, the CER has held that there is a public interest in an open and accessible process and that confidentiality orders should be the exception. See also [section 1.5](#) of the CER Filing Manual and [section 35](#) of the *National Energy Board Rules of Practice and Procedure, 1995*.
