**Re: Westcoast Energy Inc. carrying on business as Spectra Energy Transmission
(Westcoast) Safety Order SG-W102-002-2015 (Safety Order)**

NEB Information Request (IR) dated 22 December, 2015

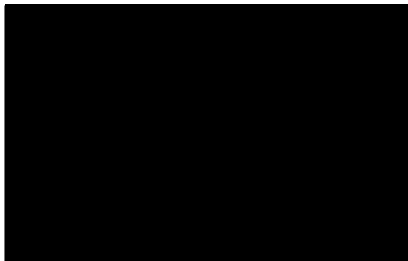

Dear Madam,

Westcoast has received the National Energy Board's (Board or NEB) IR related to Westcoast's response to the Safety Order.

First, I want to assure you that Westcoast is committed to resolving the NEB's concerns highlighted by the Safety Order. As has been noted previously, we are aligned in our common desire to operate safely and compliantly: the safety of all persons and the protection of the environment are also top priorities for Westcoast. However, the IR and its covering letter provided additional context on the interpretation of the Safety Order, which suggests a possible misunderstanding of the expectations flowing from it.

To ensure that the NEB and Westcoast are unequivocally aligned in their understanding of how to achieve the desired end result, Westcoast respectfully requests a meeting with one or more of the Panel of Members appointed to assess and determine compliance with the Safety Order.

I propose a meeting as early in the new year as possible. I look forward to the Board's response.
